Purpose:

To establish graduate student academic standing standards

Scope:

Applies to all graduate programs and all graduate students

Policy:

In order to remain in their graduate program of study, students must:

1. maintain a 3.0 GPA over all graduate courses;
2. not have received a grade of "C" in more than 1.0 unit of coursework;
3. not have received a grade of "F" or "F*."

If students do not meet these standards, they will be immediately academically dismissed from the University. The Dean of Graduate Studies will contact all students who are academically dismissed.

Students may be considered for readmission to graduate studies at the University. A detailed written request for readmission must be sent to the Dean of Graduate Studies. The Graduate Studies Program

and Policy Committee will review the request along with a recommendation from the program to which the student wishes to return or be admitted. The Committee may recommend readmission after a period of up to 12 months following the term in which the student did not meet the above standards or recommend against readmission. Normally only one application for readmission to graduate studies at the University will be considered. The Committee's decision will be conveyed to the student by the Dean of Graduate Studies.

Procedures:

- 1) The Office of Graduate Studies receives daily reports from the Registrar's Office containing the names of graduate students who have received grades of "B-", "C", "F" or "F*."
- 2) A database is maintained by the Office of Graduate Studies which contains the names and grades of the reported students.
- 3) Warning Communications to Students
 - a. A communication from the Office of Graduate Studies will be sent to caution students that their academic performance is of concern and that they should contact their academic advisor when:
 - i. a student receives a grade of "C"
 - ii. a student receives a second grade of "C"
 - iii. a student's GPA approaches 3.0.
- 4) Dismissal Communications to Students
 - a. A communication from the Office of Graduate Studies will be sent to inform students that they have been dismissed from their program of study when:
 - i. a student accumulates more than 1.0 unit of course work with a grade of "C"
 - ii. a student's GPA drops below 3.0
 - iii. a student receives a grade of "F" or "F*."
 - b. In all cases, students will be informed that they have the right to appeal an assigned grade using the Academic Appeals Procedures (2.2.13) and that they have the right to petition for readmission (2.2.9). Students will have 14 days to appeal the dismissal.
 - c. Prior to beginning the dismissal process, the Office of Graduate Studies will confirm the grade that activated the process with the faculty member. This will avoid situations where, for example, a grade of "INC" is automatically, rather than intentionally, converted to an "F."
- 5) In considering the petition for readmission, the Graduate Studies Program and Policy Committee may request additional documentation from the student (e.g., medical information) and may request a recommendation from the relevant Graduate Program Coordinator.
