

ENVIRONMENTAL POLICY STATEMENT

Background

The Mount strives to be a leader in integrating social concerns in its operations and curriculum. The following guidelines intend to further the sound ecological management of the Mount's ongoing operations.

Policy Statement

The Environmental Policy will play an integral role as the Mount continues to develop an environmentally sustainable and economically viable campus that reflects the University's core values of engagement and accountability. This statement represents a commitment by the Mount to meet the needs of students, faculty and staff while preserving the environment for future generations. The Mount is committed to preparing its students to become engaged environmental citizens on campus, in their own communities and throughout their lives. The University will educate the community about best practices to continuously improve the environmental footprint of the campus and its operations.

Scope

This policy applies to all members of the Mount Saint Vincent University community, including students, faculty, staff and visitors and will be implemented by adhering to the following guidelines:

The University will:

- consider the environmental impact of its development, communications, procurement, curriculum, research and campus activities.
- encourage the conservation of native ecosystems on campus, where possible, and will use these natural classrooms to teach stewardship and environmental responsibility.
- strive to practice ecological responsibility focused on the preservation of its natural woodlands and gardens.
- broaden its commitment to environmental education by introducing, where practical, relevant environmental content to curriculum material.
- seek to minimize its impact on landfills through the promotion of best practices to reduce, reuse and recycle.
- strive to minimize damage to non-target biological organisms through the elimination of pesticides in lawn and garden applications, with limited exception.
- promote the use of environmentally conscious transportation to all members of the Mount community, including public transit, bicycles and car-pooling.
- partner with other educational institutions and government agencies to improve best practices in its operations.

Environmental Policy Statement

- provide waste diversion and recycling stations and item-specific collection options in high-traffic areas across campus.
- purchase ENERGY STAR rated appliances and computers, paper products from responsible foresters (SFI), reduce heating plant emissions and general purpose cleaning products certified as Ecologo.
- maintain a user-friendly sustainability website with tips, links and suggestions for meeting policy guidelines.
- report annually on the energy intensity, sustainability initiatives and waste diversion; this will include a five year utility comparison which will allow the university to identify trends.
